

GROMMETS & WASHERS

Grommets / Eyelets

METALgrommets.com's ClipsShop brand of fasteners and grommets are made from high-quality brass and are produced with many optional finishes. Four stock colors — brass, nickel, black oxide, antique brass — and 18 additional standard colors of grommets are available to meet your needs. In addition to this large selection of finishes, many non-standard colored grommets can be manufactured with production minimums upon request.

The self-piercing grommets offered by METALgrommets.com function together with specially designed precision-made ClipsShop **STAINLESS STEEL** dies.

Washers

Size	Inside Diameter		Flange Diameter	
	<i>inch</i>	<i>mm</i>	<i>inch</i>	<i>mm</i>

#12	1 1/2	40.2	2.453	62.3	0.461	11.7

This combination enables the grommet press to pierce and set a grommet in a single action without pre-punching a hole. Excellent results are obtained on many materials including vinyl and fabric.

Our grommets have a solid reputation and are regarded as one of the highest quality lines in the market. For the most assertive fashion designs, tags, banners, or for heavy-duty industrial applications, we suggest you trust ClipsShop brand fasteners offered by METALgrommets.com to make your products attractive and durable.

Along with the unsurpassed quality offered by, METALgrommets.com you will find all of our self-piercing grommets competitively priced. Please visit our web site for more information and to make a purchase. We doubt you will find fasteners of this quality and lower prices anywhere!

SELF-PIERCING DIES

The large selection of precision-made ClipsShop brand **STAINLESS STEEL** self-piercing dies offered by METALgrommets.com will meet the needs of most applications. Our self-piercing dies are designed to work interchangeably with our grommet hand presses and setting machines. We also provide various kinds of other dies, which enable the application of standard grommets and eyelets as well as rivets, snaps, vents, or many other fasteners.

Changing dies with other machines is frequently difficult and some times not possible. This can increase down-time and the cost for job setup. METALgrommets.com is very proud to offer a system of complete interchangeability to make your shop more efficient. This enables the setting of all different sizes of grommets with all machines in our product portfolio. The most popular dies and the machines' capabilities are listed below. Other types of dies are available upon request. Contact us to learn more.

METALgrommets.com believes we offer the most durable self-piercing dies on the market. Not only are our dies very durable and long lasting, they are also a superior value! Even though our **STAINLESS STEEL** dies last much longer than traditional dies, when becomes time to replace a well-used die, it is inexpensive to replace and easy to install!
